Dr. Óscar Elías Biscet and the Lawton Foundation for Human Rights present Revelando Cuba. Produced and distributed in Cuba, this news program gives viewers in-depth context and analysis of international and domestic events.

Relevando Cuba also features commentary by Dr.Biscet and guest interviews, covering topics that affect the day-to-day lives of the Cuban people. This first-of-its-kind program will educate Cubans about important events they would otherwise not hear about from the island's government-controlled media. Revelando Cuba - episode one- is currently being distributed on the island.
