Dr. Óscar Elías Biscet and the Lawton Foundation for Human Rights present Revelando Cuba. Produced and distributed in Cuba, this news program gives viewers in-depth context and analysis of international and domestic events.

Relevando Cuba also features commentary by Dr.Biscet and guest interviews, covering topics that affect the day-to-day lives of the Cuban people. This first-of-its-kind program will educate Cubans about important events they would otherwise not hear about from the island's government-controlled media. Revelando Cuba - episode one- is currently being distributed on the island.

Please spread the word about this new initiative. Subscribe to our Youtube page to learn about future episodes. You can also email the program at Revelandocuba@gmail.com
